Wireless Registration for Conference Services

Gettysburg College requires all wireless computers and devices be registered on the Wireless Network. All Users, including guests, must have Antivirus protection with up to date virus definitions. NEVER connect to a WIRED Ethernet outlet. Reserved for internal use only!

- 1. Open your WiFi (connect to wireless network)
- 2. Connect to GBCWiFi
- 3. Open your Web Browser
- 4. Follow the registration process below: (Windows or Mac)

	SmartScreen Filter reported that this program is not commonly downloaded and is not signed by its author.
	If you received this program as an unexpected solicitation, link, or attachment, it might be an attempt to fool you. We recommend that you delete it.
	 Don't run this program (recommended)
	Delete program

If your antivirus is out of date or you do not have one installed, you will be redirected to a page to download an Antivirus Application. Make sure that you update the virus definitions for the Anti-Virus program after installation.

When your system meets the requirements, you will be redirected to the success page. Your computer will be configured to use the wireless network. Wait until it is finished.

After the connection is established, close and reopen your browser. You should now be able to surf the internet on gbcwifi. If not, wait 30 seconds and restart your browser again. For help or questions, contact Conference Services.

Mac Registration

You will be greeted with a security certificate, please click on continue.
