

Gettysburg College

Template for Reporting Assessment of Student Learning in the Major

Academic Department/Program Name: _____

Completed by: _____

Date: _____

1. **OUTCOMES:**

(1). What knowledge and abilities do your Department faculty expect students to demonstrate, e. g., upon completing the requirements of the Major? Please list the core student learning goals for the Major formally articulated and shared by your Department faculty.

(2). Which learning outcomes did your Department assess during a particular academic year (or years)? (If your Department assessed student needs and learning environments/processes rather than outcomes, please also report them here. Be sure to specify the student population assessed, e. g., graduating seniors.)

2. **METHODS:** Please describe the methods used by your Department to collect and analyze data to determine the attainment of the above learning outcomes or to assess learning processes/environments. (Refer to the enclosed sheet “Multiple Methods of Assessing Student Learning” and indicate the methods you used.)

3. **RESULTS:** Please report the key findings from your assessment (either verbally or graphically), interpretations of such findings, and implications for practice.

4. **UTILIZATION:** Please describe how your Department used the assessment results, e. g., annual retreat topics for discussion. List the actions/changes your Department have implemented/are implementing/are planning to implement to enhance student learning based on such results.
