The following are guidelines for students to propose ITR courses under Option 3

Cluster Proposal for Students (Option 3)

In proposing a two-course cluster to fulfill Option 3 of the Integrative Thinking Requirement (ITR), it will be helpful to the instructor of the second course if you can describe the ways in which the two courses will be connected, and the ways in which this sequence of courses will provide interdisciplinary or multidisciplinary perspectives.

Please provide the following information:

a. The student must meet with the instructor of the second course to talk through the responses that will be written on this form.

b. Once in agreement, the student must complete this form, and the instructor and the student must sign it.

c. The student must submit this signed form to the Registrar's Office.

1. Student Name _____________________________

2. Course names, numbers, and instructors.

3. Order in which courses will be taken (if relevant).

4. What connection do you see between the two courses?

5. What kind of project (integrative experience) do you envision as a way to connect the two courses?

   And, what would be posted to the portfolio?

Instructor Name: __________________________ Signature _______________________

Student Signature ________________________ Date _____________
