Gettysburg’s **Rotary Foundation Global Grant Scholarship** committee will fund one scholarship for an individual who is pursuing studies abroad and a career in one of the six areas of focus of the Rotary Foundation:

- Peace and Conflict Prevention/Resolution
- Disease Prevention and Treatment
- Water and Sanitation
- Maternal and Child Health
- Basic Education and Literacy
- Economic and Community Development

**Special eligibility requirements and conditions include:**

- The candidate must be proficient in the native language of the host country
- The candidate’s program of study must be at the graduate level
- The candidate must live in or attend college in District 7390
- The scholar must be traveling abroad for study
- The scholarship is a term of one year, although candidates may re-apply for multi-year programs
- The minimum grant amount is US$30,000
- Scholars need to live in their Rotary host District
- Global grants follow a two-step application process: A proposal followed by an application, the candidate must be admitted to his/her study program by the time of the application, but not at the time of the proposal.
- At the time of the proposal the candidate must know where he/she wants to study and the sponsors must identify the name of a primary contact in the host District
- Scholarships may not be used for studies that are already underway

**The candidate should be someone who:**

- Possesses excellent leadership skills and potential
- Has a proven record of success in his/her academic field or vocation
- Has demonstrated a personal commitment to community service
- Has well defined and realistic goals
- Has concrete ideas as to how he/she will make advances in

Summer ORISE Fellowship at the FDA

Summer research opportunities are available at the National Center for Toxicological Research (NCTR), U.S. Food and Drug Administration (FDA) in Jefferson, Arkansas. Selected individuals will train alongside NCTR investigators who conduct FDA mission-critical, translational research, that provides a scientifically sound basis for FDA regulatory decisions, and that reduces risks associated with FDA-regulated products.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and FDA. The appointment period is full-time for up to 10 weeks beginning May 28, 2019. The participant will receive a monthly stipend commensurate with educational level and experience.

Any questions? Contact Dean Forrestal mforrest@gettysburg.edu or stop by OSSE (Breidenbaugh 107).
