As part of Career Day, the Mathematics Department will be hosting a Networking Tea with alumni this Friday afternoon. Please join us and take advantage of this opportunity to talk to alumni about their career paths, work experiences, and more!

Returning alumni include:

Chris Borcik, 2005, Senior Actuarial Consultant, CCRC Actuaries, LLC

Samantha Barton, 2009, Actuarial Analyst, The Benecon Group

Brian Lemak, 2010, FDIC

Everyone is welcome to the Networking Tea - you don't have to be a math major to attend! A representative from Career Development will also be available to answer any questions you might have about internships, externships, job shadowing, and more. Hope to see you there!

Light refreshments will be served.
