

Manual for the software 'Switch'

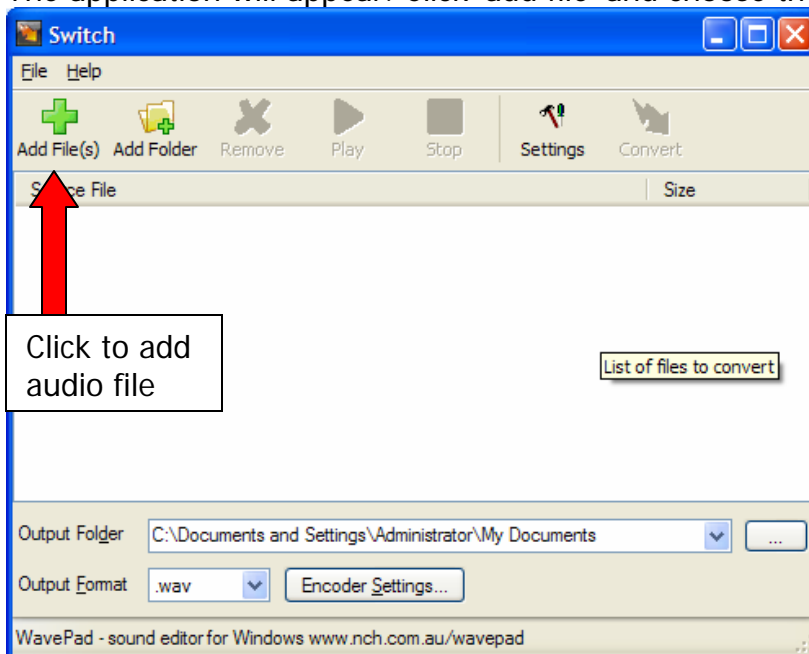

Index

- Start the program
- Add audio file
- Select Destination for output file
- Convert and export the file

To start the program, click the icon 'Switch' on the desktop of the LRC computer.

The application will appear. Click 'add file' and choose the file you would like to convert.

Once you imported the file, click the icon to select the destination for the output file (1). Make sure you select the audio file format as 'wav' (2). Then, click 'Convert' to convert and export the file to wav (3).
