

Using Flickr for Photo Galleries

1. Goto [Flickr.com](https://www.flickr.com)
2. Create an account. If you have a Yahoo ID, you can use that. You may want to change your screen name as this displays in the slideshow.
3. Upload your pictures.
4. Put your pictures in a set. Under "organize" goto "Sets", select "set" next to Create a new:, the name you choose for your set appears in the slideshow so name appropriately.
5. Go to home, select "Your Photostream" Select your set from the right.
6. Select "slideshow" from upper right.
7. Select "share" from upper right.
8. Select "customize this html" under "Grab the embed HTML"
9. Choose the size you want. Medium fits nicely in the column in CMS.
10. Copy and paste the code into CMS content.
