For those seeking testing outside of Gettysburg and the surrounding area, please note the following: testing reports must contain appropriate scores, interpretations, evaluations, and recommendations derived from an approved battery of tests administered by a qualified psychologist. Professionals who can diagnose learning disabilities are Clinical Psychologists, School Psychologists, Educational Psychologists, Neuropsychologists, and Psychometrists.

Reports from Educational Specialists, School Counselors, Vocational Counselors, Social Workers, Speech and Language Specialists, Occupational Therapists, Psychiatrists, and Physicians do not meet our criteria for testing.
