The Job Search
According to the NACE Job Outlook 2007 report, employment hires in the Fall 2006 were 12% lower than new graduates who they did from the Class of 2005. Such increasing trends are reflected in this year’s Gettysburg College Class of 2006 survey results. The data and breadth of employment offers and graduate school matriculation tells us that Gettysburg College graduates offer valuable assets to employers and graduate schools in their chosen fields.

5% of the survey respondents accepted employment prior to May 2006.
7% of the survey respondents accepted public service employment after September 2006.
28% of the respondents said they accepted employment between the months of May – September.
36% of the respondents said they had completed an internship.
Survey respondents were asked to indicate which job search methods were most successful for them. They are listed in order below:

1. Email and Family
2. The Internet
3. Faculty contacts
4. Internship

Salary offers varied widely, ranging from less than $10,000 to over $46,000. Forty-three percent of respondents to the salary question reported salaries between $31,000 and $46,000.
