GETTYSBURG COLLEGE IS A HISTORIC, HIGHLY SELECTIVE AMERICAN COLLEGE FOR THE LIBERAL ARTS AND SCIENCES WITH A PASSION FOR DOING GREAT WORK.

It’s a place where students learn as much from our exceptional faculty as they do from the energy and excitement of campus life. A wide-ranging curriculum; dozens of majors and special programs; small classes and excellent advising; lectures from visiting experts; a variety of student organizations, sports, and activities; opportunities for hands-on learning, research, and off-campus study; and hundreds of arts and cultural events every year—this is what makes Gettysburg great.

At Gettysburg, our liberal arts and sciences curriculum asks students to seek breadth as well as depth, to study, for example, literature and economics, science alongside history, languages and politics—all while developing mastery and practical skills in one or two fields. Academic requirements apply to all, but each student charts an individual path and develops their own strengths and interests. The result is a unique learning environment where students feel intellectually connected to each other and where the international student perspective is deeply valued.

This is a campus that resonates with history—with the words of President Abraham Lincoln challenging a nation to realize its ambitions and ideals. That is our heritage at Gettysburg College. We are a community of thinkers and doers, full of purpose and optimism, committed to achieving our goals. We are a place where students take on great challenges, become leaders, and work with others to accomplish much.

We are the place to invent the extraordinary person you want to be!

WELCOME TO GETTYSBURG.
Gettysburg At A Glance

Founded in **1832** in the historic town where President Abraham Lincoln gave his famous address.

92% of students live on campus in comfortable dormitories, special interest houses, apartment complexes, and fraternity houses.

2,700 students from 40 American states, 35 countries, 51% women, 49% men.
