Included in price: four on campus meals; Ascent group reading and gift; five days of backcountry food, permits and equipment; six days of guided activity; transportation for duration of trip.

Trip Overview

Activity: Climbing and Backpacking

Backpacking Difficulty Level: ★★★½★ Climbs: 5.5 - 5.11 (all levels)

Offered by the Office of Experiential Education, this student-led wilderness program provides incoming first-years the opportunity to connect through a novel, shared experience. Though it has evolved in the twenty years since its inception, Ascent continues to be a favorite tradition at the college—and for good reason. Students often enter this program surrounded by new faces, but return to campus five days later with meaningful friendships, a strong support network, and a better understanding of what they can accomplish at Gettysburg College.

This multisport adventure takes place along the Appalachian Trail in the area of Annapolis Rocks. After hiking your equipment to the climbing site, you will spend your time learning climbing movement, belaying, and rappels, and technical systems. Leave-No-Trace and backcountry living skills will also be covered. This trip is the perfect way to sample some of the many outstanding outdoor opportunities close to Gettysburg’s Campus, and to try your hand at a new hobby. The passionate community of climbers at Gettysburg College will be eager to welcome you to their ranks once you return!

General Schedule:

Wednesday, August 19
• Move into your residence hall (no planned Ascent activities)

Thursday, August 20
• Ascent registration opens 9:00am
• Family welcome luncheon from 11:00am-12:30pm
• Farewell to families following lunch
• Workshops on campus and group Ascent dinner

Friday, August 21-Tuesday, August 25
• Breakfast in Gettysburg’s dining hall
• Depart for the trail and start your adventure!
• Hiking and climbing Annapolis Rocks

Tuesday, August 25
• Return to campus, sort gear and take a long-awaited shower
• Ascent celebration BBQ

Wednesday, August 26
• Gettysburg College First Year orientation begins
Climbing Annapolis Rocks
August 20-25, 2015

The Trek and Climb: Trekking distance to the climb is under three miles. Average distances hiked daily after climbing will range from 3-6 miles. All climbs will use top rope anchors, and routes range from 5.5 (beginner) to 5.11 (experienced) so there’s something for all levels of climbers. Climbing and belay instruction will be provided, and participants will choose their own level of challenge.

Group Size: The trip consists of two GRAB staff members from the Office of Experiential Education and 6-8 first year participants.

Accommodations: You will move into your residence hall on Wednesday, and can either spend the night in your room or with your parents. You will sleep in your new residence hall on Thursday after your family leaves campus. You will spend the next four nights in a tent with your group mates.

Meals: Before trips depart, all participants will enjoy a family reception luncheon on Thursday, a group dinner on Thursday night, and breakfast in Gettysburg College’s dining hall Friday morning. Meals for the duration of the trip will be prepared by participants on backcountry stoves. Once groups return from the field there will be a celebration barbecue on campus for all Ascent participants.

Weather: The weather can be variable during this time of year, so we plan for a range of temperatures. Expect highs in the 80s, lows in the 60s, and possibly hotter days or cooler nights. Please bring the recommended clothing in order to layer and protect yourself from the elements in all conditions. A specific packing list will be made available shortly.

Physical Preparations: The best way to prepare for this trip is to stay active. Jogging, sports, or walking 3-5 miles a few times a week will all increase your enjoyment once in the field.

Communication & Emergencies: Our trip locations often have cell service, but some sections may be spotty. The staff will carry a cell phone in the event of an emergency, however we will not completely rely on the service, and the group needs to know they may be without communication at times. We develop contingencies and have specific information for emergencies, but we are also aware that based on location and access it may take time to contact or reach definitive medical care, should the need arise. Although participants are permitted to carry phones, most choose to leave technology behind to more fully immerse themselves in the experience.

Health and Medical & Release of Liability: Each participant is asked to fill out a Health and Medical form for this trip. We request that you are truthful with your medical information and speak with your GRAB staff facilitator about any concerns or pre-existing conditions. In addition, we want to inform you that you will be asked to sign our indemnity form, and that you are aware that all Gettysburg College policies and procedures apply to this trip.

Medical Kit and Medicine: It is our top priority to mitigate risk on these experiences, but we need your assistance to inform us about your background, so we can properly prepare together. While in the field, we carry a medical and trauma kit. The medical kit has basic bandaging and wound care items, whereas our trauma kit has basic splinting and medicines such as aspirin, anti-diarrheal, epinephrine, Benadryl. We ask that you have with you your prescription medicine that you need on a daily/weekly basis, and that you transport it in its original container/bottle with your name and dosage. It is your responsibility to manage your own medication. For those with strong allergies that require medication, it is very important that you bring extra epinephrine or necessary medication in the event that yours becomes lost or broken.
