Date: July, 2016
To: All Returning Students
From: Information Technology
Subject: Fall 2016 Information

When you return to campus this fall, network registration will not be necessary if your computer or device was previously registered. All new computers and devices eligible for registration and capable of running an antivirus program will be checked for a valid antivirus program with current virus definitions.

Each student has one Ethernet connection (jack) in their room for connecting to the Internet with a cable. Be sure you plug your computer into the Ethernet jack (D1, middle port) and not the telephone jack (V1, first port) in your room. Remember, you may not add more jacks using routers, switches, hubs, wireless access points or any other device.

*Please note: Ethernet common room jacks will not be activated for any reason.*

Multiple computer systems including dual boot systems are permitted on the network as long as they have Windows Vista Home Edition or higher (for best security use Windows 7 or higher) or Mac OS 10.8 or higher. You can use Linux as well, but do not expect help or assistance if you can't get it to work.

Student computing information, such as how to register a gaming console, DVD player, TV or TiVo and getting help can be found at [www.gettysburg.edu/it](http://www.gettysburg.edu/it)

Computing assistance will be available at the West building location during the following days and hours. Contact information and hours are also posted at [www.gettysburg.edu/g-tech](http://www.gettysburg.edu/g-tech)

August 17th through August 21st 8am to 5pm
Closed morning of August 23rd for training. Will reopen 1 pm
August 24th through August 28th 8am to 5pm

As always, during orientation, first year students take priority over upper class students. Please have patience if things get busy. We will be happy to assist you as soon as possible!

A telephone line and/or college provided voicemail for students in College housing will only be provided upon request. Student-provided answering machines are permitted for use on College telephone lines. Students may request college telephone and voicemail service by email at Telecomm@gettysburg.edu or call the Telecom Office at extension 7000 option 4.

TV and Ethernet cables can be picked up at the G-Tech office between 8 am and 5 pm, Monday – Friday before classes start. For semester hours of operation, check the G-Tech calendar at [www.gettysburg.edu/it](http://www.gettysburg.edu/it)

Enjoy the rest of the summer and we look forward to seeing you in August!
