The CLS Program is a program of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

Please note that participants in the CLS Program are not required to have any experience studying critical languages for most of the fourteen languages. Arabic, Chinese, Persian, Russian, and Japanese institutes have language prerequisites, which can be found on the CLS website: http://www.clscholarship.org/information-for/applicants.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply. There is no service requirement for CLS Alumni after the program. However, participants are expected to continue their language study beyond the scholarship period, and later apply their critical language skills in their professional careers. Participants are selected based on their commitment to language learning and plans to apply their language skills to their future academic or professional pursuits.

The application is now live and available online at: http://www.clscholarship.org/apply

Applications will be due November 16, 2016 by 8:00 pm EST.

Prior to preparing their application, interested students should review the full eligibility and application information on the CLS Program website: http://www.clscholarship.org/information-for/applicants.

If you have any questions or want someone to review your application, please contact Dean Maureen Forrestal (mforrest@gettysburg.edu) to set up an appointment.

Intensive and demanding, the HIA Fellowship brings together international groups of college students and recent grads to explore national histories of discrimination and resistance—including anti-Semitism, Islamophobia, and racism—as they affect different minority groups today. The Fellowship seeks to education, connect, and inspire the world’s future leaders in the field of human rights and social justice.

There are two fellowship programs, one based in several countries abroad and one based domestically in the US. HIA’s programs concern human rights generally, but they focus specifically on the relationship between majority and minority groups in the countries in which the programs take place: Denmark, France, Germany, the Netherlands, Poland.

The John Lewis Fellowship, the American program, focuses on issues of diversity within the United States, with a particular emphasis on Atlanta, the American South and the Civil Rights Movement.

The deadline is 1/4/17 and the websites are

The NIH Oxford-Cambridge Scholars Program is an accelerated, individualized doctoral training program for outstanding science students committed to biomedical research career. The program is based on the British system, in which students perform doctoral research without required formal courses other than those students choose to take in relationship to their own interests. Student selected for admission to the program have already developed a passion for science through engagement in summer, job related, or undergraduate research programs.

Top candidates have high GRE/MCAT scores, are experienced researchers, are self-motivated and driven, collaborators and innovators, are co-authors on scientific publications and presentations, and are developing long-term scientific goals.

You must be a US citizen with a minimum of a bacheloror’s degree and have your GRE and MCAT scores.

Application portal open—https://www2.training.nih.gov/transfer/gppapp

NIH Oxford-Cambridge Scholars Program

The U.S. Department of Homeland Security (DHS) Science and Technology Directorate Office of University Programs sponsors a 10-week summer internship program for students majoring in homeland security related science, technology, engineering and mathematics (HS-STEM) disciplines. The program provides students with quality research experiences at federal research facilities located across the country and allows students the opportunity to establish connections with DHS professionals. It is open to undergraduate and graduate students in a broad spectrum of HS-STEM disciplines and DHS mission-relevant Research Areas.

Undergraduate students receive a $6,000 stipend plus travel expenses.

Graduate students receive a $7,000 stipend plus travel expenses.

10-week research experiences are offered at: Coast Guard Research and Development Center ● Customs and Borders Protection ● Engineer Research and Development Center ● Federal Emergency Management Agency ● Immigration and Customs Enforcement, Health Service Corps ● National Security Technologies ● National Urban Security Technology Laboratory ● Naval Research Laboratory ● Office for Interoperability and Compatibility ● Transportation Security Laboratory ● DOE National Laboratories: Argonne, Berkeley, Idaho, Livermore, Los Alamos, Oak Ridge, Pacific Northwest, and Sandia

Areas of research: Engineering, computer science, mathematics, physics, chemistry, biological / life sciences, environmental science, emergency and incident management, social sciences, and more.

U.S. citizenship required

Application deadline: December 7, 2016, 11:59PM EST

How to Apply: Applications and supporting materials must be submitted at https://www.zintellect.com/Posting/Details/2595

Program Information: Detailed information about the internships can be found at http://www.orau.gov/dhseducation/internships/

For questions please email us at dhsed@orau.org.
**Two Prestigious Scholarships: Upcoming Deadline!**

By providing funding to college sophomores and juniors who intend to pursue research careers in the natural sciences, mathematics and engineering, the Goldwater Scholarship is helping ensure that the U.S. is producing the number of highly-qualified professionals the Nation needs in these critical fields. Scholarships of up to $7,500 a year are provided to help cover costs associated with tuition, fees, books, room and board. For more details regarding eligibility and the online application process, please go to https://goldwater.scholarsapply.org/.

The Truman Scholarship is merit-based and given to college students who plan to pursue careers in government or elsewhere in public service. Truman Scholars receive up to $30,000 for graduate or professional school, participate in leadership development activities, and have special opportunities for internships and employment with the federal government.

Candidates must be full-time junior-level students at a four-year institution pursuing a bachelor's degree during the 2016-2017 academic year, in the upper quarter of the class and a US citizen. They must also have an extensive record of public and community service and demonstrated leadership potential.

Our institutional deadline for both scholarships is Monday, November 28th. No submissions will be reviewed after this date. Please contact Dean Maureen Forrestal for details regarding our institutional nomination process at mforrest@gettysburg.edu

**Fulbright Alumni/ae Recipients Returning to Campus!**

Seven alumni who received either the Fulbright full research grant or the English Teaching Assistantship will be returning to campus to meet and talk with current students about their experiences as Fulbright Scholars.

All members of the campus community are invited to come to hear these alumni/ae share their memories of the campus application process, talk about their experiences while in their host country, and provide insight into how the experience of being a Fulbright Scholar may have affected their choice of career.

The alumni/ae are

- **Archana Patel ’04**—a Political Science major who conducted independent research in India
- **Laura Hough ’06**—a German Studies major who taught English in Germany
- **Anne Emerson Leak ’08**—a Physics major who conducted independent research in Cameroon
- **Katie Gramlich Ferraro ’09**—a German Studies major who taught English in Germany
- **Marc Fialkoff ’10**—who earned his master's degree at the U. of Leeds (UK) in Transport Studies
- **Jennifer Lech ’10**—a Psychology and Spanish major who taught English in Portugal
- **Emily Ruhl ’13**—an Environmental Studies major who taught English in Malaysia

For faculty and the rest of the campus who may have known these students, please come to welcome these alumni/ae back home!

**When:** Nov. 11
**Time:** 4:30-6
**Where:** Specialty Dining

**Light refreshments will be served.**
Bits & Pieces
2017 Posters on the Hill
Each year, a select group of students are chosen to represent undergraduate research on Capitol Hill in Washington, D.C. This event provides students and faculty mentors with a chance to meet with their congressional representatives, showcase their research, and learn about advocacy from Washington Partners. Applications are now open and will be accepted through November 4. For more information, visit http://www.cur.org/conferences_and_events/student_events/posters_on_the_hill/

31st Annual National Conference on Undergraduate Research, University of Memphis, April 6-8, 2017
We look forward to showcasing the best in undergraduate research and the creative and performing arts during this conference. You’ll find our campus to be a welcoming environment in which to share your research and creative works, and you’ll see why, at the University of Memphis, we are “driven by doing.” While you are here, you will have the opportunity to experience what we love about our city. Recognized as the birthplace of blues, rock ‘n’ roll, and soul, Memphis offers many cultural, historical, and entertainment opportunities for NCUR attendees. Barbeque, live music, world-famous attractions like Graceland, Beale Street, the mighty Mississippi, and the National Civil Rights Museum—Memphis has all of this and more. So slip on your blue suede shoes, and prepare to attend NCUR 2017! Abstract submission deadline is 12/2/16. http://www.cur.org/ncur_2017/
