

This is a list of off-campus programs that have been considered for credit towards the Economics major or minor since Fall 2003. The Economics Department's determination is given in the "Counts as..." column. If a course number or range is listed, the student can get credit towards the major or minor for that course or an elective in that range. If the entry is "no credit", the determination has been made that this course does not count towards the Economics major or minor. If there is no entry, the course has not previously been reviewed. The student should apply for approval through the Off Campus Studies online course approval system. You need to provide the Economics Department chair with information about the course (at a minimum, what the subject of the course is and what are its prerequisites; ideally a syllabus).

Program	Course no.	Course title	Counts as...
American University Cairo	ECO 403	International Trade	Econ 300-399
American University Cairo	ECO 320	The Digital Economy	Econ 300-399
