5. Questionnaire

Please complete the questionnaire in the space below. If you would like to schedule an interview with the IDS committee to discuss your application, [click here](#):

Q1: Why did you decide to design your own major rather than complete a traditional major? What challenges do you anticipate as you complete your major?

Q2: Explain how the courses you have chosen relate to the curricular theme you have identified as the core of your major. Why did you choose this theme?

Q3: What are the goals you ultimately hope to accomplish in the individualized major program? Do you have a sense of what you would like to do after graduation?

Q4: Discuss your plans for off-campus study, any internships or professional goals you hope to meet, or plans for graduate study that will be enhanced by your individual major.
