

Gettysburg Supplemental Question: Source(s) of Mentoring during College

Survey Question: *Who became your mentor(s) during your years at Gettysburg College? (A mentor is defined as: a coach, guide, tutor, facilitator, counselor and trusted advisor who is willing to spend his or her time and expertise to guide your development during college.)* (Mark all that apply).

- **94 percent of Gettysburg' 2026 graduating seniors reported having had a mentor during their years at the College.**
- **6 percent (27 out of 485 students who answered this question) reported no mentor. 20 seniors skipped this question.**

Note: A small number of seniors selected "Other" and I re-coded their responses into proper categories. *This is a combined percentage which also includes respondents who selected "Coaches" (if they had not already selected "Administrator(s) or support staff member(s)" - I manually sorted and counted such individuals.). **This is a derived percentage (2026: 94%=100% minus 6% who reported "No one").
