Note. Only full-time, degree-seeking students were included in the counts of students above. Every year, there was a very small percentage of (domestic) students who did not report their race or ethnicity; had their race/ethnicity been identified, the proportions displayed above might have changed very slightly (Based on anecdotal evidence, almost all of these "Unknown" individuals would be "White"). Throughout the Fact Book, people of color included multi-racial. The total number of full-time faculty did not include those who were temporary replacements for faculty members on leave. An international faculty member may become a US permanent resident/green card holder during the course of a year; in that case, he/she will no longer be counted as International, thus often leading to a decrease of International number in the subsequent year.

Source: Office of Institutional Analysis (based on the Registrar's enrollment reports, faculty race/ethnicity information provided by the Office of the Provost, and non-faculty employee race/ethnicity information reported to IPEDS by Human Resources.)
