

First-Year Retention Rates by Gender and Race/Ethnicity

Note. A very small number of students (domestic) did not report their race or ethnicity. Based on anecdotal evidence, almost all of these "Unknown" individuals would self-report as "White". In the charts above, "Unknown" race/ethnicity students were included as a part of the "Domestic White" group.

*Fall 2018 cohort: 27/29=93.1%. **Fall 2018 cohort: 144/157=91.7%. 2-yr Overall=total retained in the fall 2017 and fall 2018 cohorts/total number of students in these two cohorts when starting at the College (i.e., two cohorts combined).
