CIP Code is a six-digit code in the form xx.xxxx that identifies instructional program specialties. It is the accepted federal government statistical standard on instructional program classifications and is used in a variety of education information surveys and databases. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, 2000, 2010, and 2020. Reported in the table above is the six-digit CIP Code, except for East Asian Studies (4-digit CIP code displayed), as it has two tracks: Chinese Track: 05.0123; Japanese Track: 05.0127).

\*\*CIP code for Computer Science changed to 11.0701, starting from the Class of 2019. CIP code for Psychology changed to 42.2704, starting from the Class of 2020. CIP code for Economics (BA) changed to 45.0603, starting from the Class of 2021.
