## Announcement of Courses - First Year Supplement

### Fall, 2019

The following courses of instruction, which are described in the College Catalogue, will be offered during the fall semester and are open to first year students. Students may choose courses from this listing to begin a major field of study, to fulfill curricular goals, or to pursue an area of personal interest.

Although the listings below give guidance to students who plan to major in a particular field, in fact (with a few limited exceptions) one does not have to begin courses in a major in the first semester. It is not expected that an entering student knows in what field he or she will major. Experience shows that many students change their plans after they enter college as they encounter new academic areas and modes of teaching. The major field of study is part of the Gettysburg curriculum but only part --- equally important are the curricular goals and elective courses. So in deciding the courses in which you will pre-register, think broadly about what your interests are now and what fields you can explore in college that you have not previously studied. A liberal arts education is about broad exploration of many areas, not a premature identification of a major.

You may qualify for advanced level courses as a result of Advanced Placement Tests, departmental exams or interviews with department chairpersons. However, for now, limit your course preferences to those listed in this supplement. You will have adequate opportunity to make course schedule changes in the fall.

Each listing contains the course number and title, day and time of class meeting, requirement fully or partially fulfilled, and in some instances, other special information or prerequisites. Please note that a day notation of R = Thursday so that a course listed as TR 1:10-2:25 meets Tuesday and Thursday 1:10-2:25. In addition, most departments have provided a statement to assist prospective majors in preparing a schedule. Even within majors, programs can be uniquely tailored to specific interests and backgrounds.

These are the requirement designations used in this booklet.
